Day One of the conference will centre on Market Access, Government Affairs, and Policy, while Day Two will be dedicated to preparing suppliers for the major changes to New Zealand's medical device regulatory landscape set to take effect in 2026.

To mark our 40-year anniversary, we are hosting a special networking event to celebrate this significant milestone. We would be thrilled to have you join us for this memorable occasion.

MTANZ CODE OF ETHICS

All exhibitors must adhere to the guidelines of the MTANZ Industry Code of Ethics 2021 (and amendments). A copy of the Code of Ethics can be viewed [here](#).

Ethical standards and compliance with applicable laws are critical to the medical technology industry's ability to continue its successful collaboration with healthcare professionals.

A close relationship between suppliers and the clinician is a key element in the innovation and development of medical technology products. This close relationship is a positive for patients who are the ultimate beneficiaries of advanced medical technology. However, this close relationship does require a clear understanding of ethical behaviours by both parties.

In particular when exhibiting at a MTANZ organised conference, clause 5.10 'Gifts to Healthcare Professionals' must be adhered to. This clause states the following:

- A Company should ensure that sales of Medical Technology are made solely on the basis of efficacy, safety, quality, price and service and never on the basis of a Healthcare Professional receiving payments, gifts or Hospitality.
- Companies may not:
 - provide Healthcare Professionals any type of branded or non-branded promotional items (e.g. pens, notebooks, tote bags), even if the item is of minimal value and related to the Healthcare Professional's work or for the benefit of the patients.
 - provide Healthcare Professionals with gifts, including gifts of cash, food, wine or spirits, gift baskets, gift cards/certificates or flowers.
 - accept a gift from a Healthcare Professional which is beyond the level of what is reasonable and customary in the circumstances of the relationship.
- A company may:
 - occasionally provide a Healthcare Professional with an educational item that benefits patients or serves a genuine educational function for the Healthcare Professional provided the item has a fair market value of less than \$100, except in the case of medical textbooks or anatomical models.
 - For the avoidance of doubt, this clause does not preclude the legitimate practice of providing to Healthcare Professionals appropriate samples of Medical Technologies for genuine training, educational or Medical Technology evaluation purposes (generally in a clinical setting).
